

CFSI Website Privacy Policy

Effective Date: Jul 30, 2026

The Collective Foundation for Structural Integration (CFSI) is deeply committed to maintaining the highest standard of transparency, ethical accountability, and data privacy for our students, fellows, auditors, faculty, and public clinical models. This Privacy Policy explains how we collect, safeguard, use, and manage information collected through our website, student portals, and applications.

1. Information We Collect

To support our educational tracks and clinical service blueprints, CFSI collects the following categories of information:

- **Academic & Application Data:** Name, contact information, high school diploma verifications, clinical tenure metrics, and transcripts for program admission or transfer credit evaluation.
- **Admissions Evaluations:** Intake history records and evaluation notes from our Licensed Clinical Social Worker (LCSW) boundary checks.
- **Clinical & Case-Study Metrics:** Structural reasoning data, somatic literacy metrics, family case-study maps, and in-home care logs compiled during the Module I Audit and Module II Practitioner clinic rotations.
- **Media & Photographic Documentation:** Video and photographic records captured during faculty demonstrations and clinical shifts, utilized strictly under explicit media release authorizations.
- **Administrative & Financial Tracking:** Fellowship service-for-tuition scaling hours, signed work-trade time sheets, and milestone funding records.

2. How We Use Your Information

CFSI uses collected data strictly to advance our educational mission, ensure safety, and comply with state and professional board regulations:

- To process student entrance applications, evaluate transfer credit portfolios, and maintain permanent academic rosters.
- To manage the clinical student rotation schedules and enforce elite 1:6 instructor-to-student supervision floors.
- To build cross-disciplinary research matrices regarding fascial behavior, somatic pacing, and post-traumatic integration.

- To generate claims-safe, non-medical clinical documentation that satisfies IASI and NCBTMB ethical standards.
- To administer institutional scholarship grants, volunteer exchanges, and the Residency Service Credit Funding Mechanism.

3. Information Protection and Data Retention

We implement strict organizational guardrails and institutional security protocols to prevent unauthorized access, alteration, or disclosure of sensitive personal data:

- **Professional Discretion:** All family case-study records, clinical model logs, and student intake files are maintained with strict professional discretion and processed in accordance with privacy protection standards.
- **Academic Record Retention:** Student transcripts, enrollment ledgers, final portfolios, and formal grievance logs are kept securely in permanent institutional archives for a minimum of three years to maintain compliance with IASI Criteria 17 and 20.
- **Non-Commercial Guarantee:** CFSI does not sell, trade, or lease personal data or student profiles to commercial entities, marketing firms, or external vendors.

4. Continuous Consent and Media Rights

- **Fluid Consent:** In alignment with our core values, consent-based tracking is fully fluid. Clinic models, students, and participants retain the absolute right to pause or stop data tracking, visual logging, or palpation loops at any moment without offering justification.
- **Media Revocation:** Media permissions granted for videography and documentation can be revoked at any time by submitting a written notice to the CFSI administrative office.

5. Your Rights and Due Process

All website users, students, and clinical participants have the right to request access to their stored files, review their performance metrics, or update their application details. In the event of any administrative action affecting a user's program or account status, CFSI guarantees full due process, providing timely disclosure of evidence and a formal opportunity to respond.

6. Institutional Policy Updates

CFSI reserves the right to modify this website privacy policy at any time to reflect updates in regulatory frameworks or IASI accreditation benchmarks. Changes will become immediately effective upon posting to this page.

7. Contact Information

For questions regarding data access, data modification, or to file an inquiry regarding our clinical ethics policies, contact the CFSI Administration office:
